avg. ticket*

* average observed at restaurants featuring photos + multilingual menus.

One table, many languages — one shared moment.

Everyone reads the menu in their own language. GlobalMenu removes the language barrier.

The concept

Why GlobalMenu changes the game

Your guests come from all over the world. Your staff doesn't. GlobalMenu removes the language barrier and turns your paper menu into a multilingual, instant digital experience, one scan away.

WHAT YOUR GUESTS EXPERIENCE

One scan, the menu opens

QR code branded with your restaurant. No app to download.

In their own language

Auto-detection or choice among 15 languages (EN, ES, DE, IT, ZH, JA, AR...).

With photos & allergens

Every dish becomes desirable. Allergens are clearly displayed.

Order & book a table

Guests order in-house or reserve a table right from the menu.

The problem you already know

TODAY

Without GlobalMenu

Aging paper menus, reprinted for every change

Language barrier slower service, misunderstandings

Allergens rarely clear legal risk

No data on what your guests actually look at

Staff translating = lost time, lower tickets

TOMORROW

With GlobalMenu

One digital menu, updated in a click

15 instant languages, tickets up 15-25 %

Allergens & diets displayed automatically

Dashboard: viewed dishes, orders, guest languages

Staff focus on service, not translation

“

In three weeks, our average ticket climbed 18 %. Tourists order more when they understand the menu — it's that simple.

— Pilot restaurant, seaside

Offer & rollout

We handle everything. You just serve.

01

Send us your menu

Photo, PDF, Word — anything.
We structure and translate it in
48 hours.

02

We print your QR codes

Stickers, tent cards or place
mats in your brand colors.
Worldwide shipping included.

03

Guests scan

The menu opens in their
language. Unlimited updates
from a simple dashboard.

Simple pricing, no commitment

14-day free trial · no credit card.
